Ref: Invitation to visit the Department of Engineering Physics of Tsinghua University

Dear Professor Andreani,

I am pleased to invite you to visit the Department of Engineering Physics of Tsinghua University in Beijing during the month of September 2010. We look forward to the acquaintance of the neutron-scattering research program of your group. Our students and faculty will certainly be profited by hearing from you lectures on materials characterization by scattering and imaging techniques. Please kindly send me the title(s) and a short abstract of your lecture(s) along with a brief bio of yours so that I may announce your visit and seminars in advance. As you know, a small neutron source is currently under construction on Tsinghua campus, we hope to discuss with you about our Compact Pulsed Hadron Source (CPHS) Project and a plan of collaboration with you on neutron-scattering science and technology.

The university will be glad to cover the local expenses of your visit. Mr. Xu, our administrative assistant, will help you to make lodging arrangement. If you have any questions, please do not hesitate to contact Mr. Xu [xudong83@tsinghua.org.cn](mailto:xudong83@tsinghua.org.cn) or myself. I look forward to seeing you in Beijing.

Yours sincerely,

Chun Loong  
Lead Scientist for CPHS
