*Index locorum*

Per i motivi espressi nell'*Introduzione* si danno i titoli delle opere presenti in ciascuno dei due volumi delle *Opere* di Elsa Morante, usciti presso Mondadori nella Collana I Meridiani, su cui è stato costruito il seguente *Index*. Vol. I, 1988: *Cronologia* a cura di Carlo Cecchi e Cesare Garboli; *Menzogna e sortilegio*; *L'isola di Arturo*; *Alibi*; *Lo scialle andaluso*; Appendice da *Il gioco segreto*. Vol. II, 1990: *Il Mondo salvato dai ragazzini e altri poemi*; *La Storia*; *Aracoeli*; *Pro o contro la bomba atomica e altri scritti*; *Lettere ad Antonio*.

Di ogni parola viene fornito il titolo dell'opera e la pagina dell'opera in cui si trova, seguita o dalla virgola e da un numero superiore a 1 indicante il numero delle occorrenze di essa presenti in quella pagina o dal punto e virgola se si ha una sola occorrenza nella pagina. Di ogni parola lemma del *Lessico* e presente nel lemmario si danno tutte le flessioni e alterazioni di essa presenti nelle tre opere prescelte: *Lettere ad Antonio*, *Alibi*, *Aracoeli*. Quando una parola compare solo in una delle tre si è provveduto come già nel *Lessico* ad inserire le occorrenze di una o altre opere. Tale parola è sottolineata nel lemmario.
